WHOLEFARM

SOFT SERVE MIX

Soft Serve has been big business in Australia. for decades and is always popular. Major brands have mostly been holding this market to themselves through expensive machinery and specifically manufactured liquid dairy bases.

Our Premium Soft Serve powder has been designed and tested in our machines to deliver that universally recognised premium quality that is accessible to many more retailers.

SOFTSERVE MACHINE HIRE

These machines are very simple to use and maintain and give top quality product day in day out.. You can use the soft serve for cones, sundaes, flurries and for delicious rich thickshakes.

This combination of product and machine presents a retailing opportunity for you to create unique products that are of higher value than simply re-selling retail items from wholesalers

- Machine Hire - Low Cost
- Machine Setup & Maintenance
- Staff training
- Customer Helpline
- Superior Product Choice
