INFORMATION SHEET

YoYo Yoghurt Soft Serve

YoYoTM
frozen yogurt

Our YoYo powder mix has been designed to make a high quality, fully flavoured frozen yoghurt product with a true yoghurt taste. It performs and compares with the best of the major European brands when used according to the following instructions. When combined with fresh fruit or fruit syrups the results are delicious, and more healthy and upmarket than standard soft serve with plain syrup toppings. We also offer a customised option to include high levels of probiotic bacteria within our powder; though this adds cost it is a powerful marketing tool.

This product can also be used as a base for sundaes, flurries, frappes, thick shakes, milk shakes and as a dessert topping, or as a base to produce your own flavoured frozen yoghurt.

Directions For Frozen Yoghurt: Add 3.5 litres of pure water and 1 litre whole milk to the mixing vessel and then add the YoYo powder (1.6kg) sachet. Mix in a food-grade bucket with a long (40cm) wire whisk for 1 minute, until mix is completely dissolved. Allow 5 minutes before giving a final whisk, then add to the ice cream machine hopper.

Consumers accept that consumption of Yoghurt on a daily basis is a positive step for their health. Yoghurt is a vibrant sector of the retail food market and subject to constant innovation and improvements. It is particularly noted for quick adoption of novel ingredients that benefit the consumer's health. Our product is unique in that it carries many of these benefits, normally only seen in supermarket products, to the foodservice business - in a new and exciting way.

TYPICAL MICROBIOLOGICAL ANALYSIS
